Section Crew See Foreman Killed.

In full view of the men he was in charge of, John McCarthy, a section foreman was struck by fast Louisville & Nashville freight No. 42 at Escondida, about four miles south of here about 11:20 o'clock Tuesday morning and as a result of his injuries he died a few minutes later without regaining consciousness.

McCarthy, who was aged about thirty-eight years, had been in the employ of the railroad company for several years. Tuesday morning he was engaged with his crew of workmen at Escondida repairing the track at that point. He was seated on the track and it is supposed fell asleep. The members of the crew thinking he would get out of the way of the fast approaching train, did not realize this until the train was upon him. The other men stepped aside when the pilot of the engine struck McCarthy, hurling him a distance of fifteen feet to the other side of the track.

The heavy train, which was going at a rapid rate of speed down a steep grade was brought to a stop a short distance from the scene and the unfortunate man was picked up and put aboard. He was still breathing when put on the train but died before reaching Paris.

The remains of the dead man were taken to the undertaking establishment of Geo. W. Davis to await the coroner's inquest and where they were prepared for burial.

Both legs were broken between the knee and the ankle and the bone of the right leg was protruding through the flesh. His left thigh was also fractured and the left arm broken between the elbow and wrist. Just above the right temple the scalp was cut. He was bruised about the head and body and the face was badly abraded.

In the clothing of the dead man was found fifty-three dollars and fifty cents, a number of keys and a gold watch. The crystal of the timepiece was broken and the watch stopped at 11:20 which denoted the exact time the unfortunate man was struck by the train.

McCarthy was a brother of Engineer J. J. McCarthy, of the L. & N. and boarded with his sister, Mrs. Frank Lenox, at the corner of Thirteenth and High streets where the body was taken after being prepared for burial.

Besides the sister and brother residing in this city, McCarthy is survived by another sister, Mrs. Ed Haynes, of Covington, and three brothers, Fred, of Pointexter, Charles, of Richmond, and Michael McCarthy, of Cincinnati.

The remains were taken to Cynthia yesterday on the early morning train, and the funeral was held at the St. Edward Catholic church, the Rev. Father George A. Bealer, officiating. The burial took place at St. Edward's cemetery.

Seeking New Road.

There promises to be a lively competition between Winchester and Mt. Sterling for the proposed extension which the Louisville & Nashville company is said to contemplate building from Paris to reach the extensive coal fields of Eastern Kentucky. Two lines have been surveyed, one taking up the original route of the Kentucky Midland, running through Little Rock and North Middletown, this county, into the mountains, first tapping the Chesapeake & Ohio at or near Mt. Sterling. The citizens of that city are putting forth every endeavor to secure this line. The other line runs from Paris through the Clark county line, thence through Winchester to Indian Fields, and on into the mountains to Irvine, connecting there with the Louisville & Atlantic road, which is now a part of the Louisville & Nashville system. The Winchester Commercial Club has taken the matter up and has gone to work in a vigorous manner to induce the railroad people to adopt the Winchester survey. Report has it that both lines will be built.

LIQUID CURES ECZEMA

WHERE SALVE FAILS

In regard to skin diseases medical authorities are now agreed on this: Don't imprison the disease germs in your skin by the use of greasy salves, and thus encourage them to multiply. A true cure of all eczematous diseases can be brought about only by using the healing agents in the form of a liquid. WASH THE GERMS OUT. A simple wash: A compound of Oil of Wintergreen, Thymol, and other ingredients as combined in the D. D. D. Prescription, penetrates to the disease germs and destroys it, then soothes and heals the skin as nothing else has ever done.

A 25-cent trial bottle will start the cure, and give you instant relief.

Recruits Wanted for Guards.

That the United States is making every preparation for readiness in case of war is shown by recent communications from the Secretary of War to the Adjutant General of Kentucky and it is thought by those in the military department of the State that there may be something back of the orders.

The Secretary of War recently instructed the Adjutant General to get the companies of the Kentucky National Guard recruited up to the full quota and also issued an order regarding war recruiting. This order provided that in case the Kentucky militia was ordered into active service one officer of each company should be left behind. This officer is to be known as a war recruiting officer and his duty is to take enlistments.

It was said at the office of the Adjutant General Monday that the national Government is getting things in shape so that much of the red tape now necessary in the mobilization of troops can be dispensed with in case of war.

James Making a Winning Fight.

All doubt of Democratic success can be dispelled by reading the newspaper reports of Ollie James' triumphant journey through the State. Wherever he has gone immense crowds have greeted him, and the enthusiasm is greater than has been aroused in years in any political campaign. This is not entirely due to Mr. James' magnetic personality, although he is popular with all classes. It is caused by the desire of the Democrats to show by their presence that they are going to send to the United States Senate a man who will vote exactly opposite to Senator Bradley. They recognize that one vote in the Senate may mean the control of that body, so closely are the parties divided. It was not necessary for Democratic speakers to raise National issues in this fight. The voters themselves are asking questions about the tariff and the trusts and they have made this great issue a feature of the campaign. All the efforts of Judge O'Rear to confine this contest to State matters have only convinced them that the Republican party wants to change the subject because it cannot face the people on its record in Congress and in the White House.

The Legislators to be chosen in November will not only elect a Senator next January, but nineteen of the State Senators will hold over for two years and will vote for Bradley's successor in 1914. Kentucky has never engaged in a more far-reaching contest. It concerns a Governorship and all the State offices; two United States Senatorships, and will have an influence on the election of a President next year. That is why Champ Clark, Speaker of the House, Oscar Underwood, the Floor Leader, Governor Marshall, of Indiana, William J. Bryan, and all the great National figures are tendering their support to the Kentucky Democrats. They know how vital it is to success in the nation that Kentucky should vote right this year.

Eloquent as Ollie James is always upon the stump, he has revealed new powers of oratory and logic in this campaign. His speeches are doing a world of good for the party, and wherever he has appeared Democratic hopes have been brightened.

Elect a Democrat.

Nineteen hold-over Senators, just one-half of that body are Democrats. They will be presided over by Edward J. McDermott, clean, capable and trust-worthy. They can put into practical laws the reforms promised by the platform. They are not only under pledge to their party but the people will hold them to strict account. Give them a Governor of their own political faith, and discord will vanish and the needs of the State will be supplied. Judge O'Rear in the executive office, with a Democratic Legislature would be as helpless as a child.

Jim Garnett's Popularity.

Hon. James Garnett, Democratic nominee for Attorney General, is not only one of the ablest lawyers in Kentucky, but his popularity is co-extensive with his acquaintance. It is conceded that he will get more Republican votes in the Eleventh District than any man on the ticket. When Jim Garnett's name is mentioned in Adair and adjoining counties, they do not think of him as a politician, but only as a loyal friend and neighbor whose talents are second to no man's, and whose character is of the highest.

He began his speaking campaign last week at Danville, and his address was received with great favor. He is clear, forceful and logical, and so fair is he even to his political opponents, that those who hear him are convinced that he is not of the average type of man who seeks office. His ability as a lawyer is unquestionable. He will make one of the greatest Attorney Generals Kentucky has ever had.

Further Proof.

In further proof of the fact that the Democrats will sweep the State can be found in Judge O'Rear's desperate appeal to the people of the Eleventh district to come to his aid. In a recent speech in the mountains he urged every man to come to the polls and go to "the head of the creek" and bring his friends with him. He said that Taft had carried the Eleventh District by 23,000 and that he expected to carry it by 35,000—that the vote was there, and that it must be gotten out. Take the votes of other years and calculate also on the recent census figures, and it is impossible for the Republican majority to exceed 25,000. Anything beyond this figure would mean the stuffing of ballot boxes, and the addition of thousands of fraudulent votes.

Heavy Increase in Coal Output.

There was a notable activity in Kentucky's coal mining in 1910 according to figures just made public by E. W. Parker, of the United States Geological Survey.

The total production of the State was 14,623,319 short tons; valued at \$14,405,887, as against 10,697,917, in 1909, a gain of 3,925,935 short tons, or 36.7 per cent in quantity, and of \$4,325,970, or 42.92 per cent, in value.

The stoppage of work in the coal mines affected by the general strike of 1910 was of material benefit to the operators and miners in Kentucky, particularly in the Western field. During the six months of idleness in the other States the shipments over the Louisville and Nashville Railroad from the Western Kentucky coal field increased nearly 70 per cent over the corresponding period in 1909.

Notwithstanding the extraordinary demand upon the Kentucky mines, the labor supply was entirely adequate, as many of the miners who were thrown out of work by the strike in Illinois and the Southwestern States sought employment in Kentucky and in other States not affected by the strike order. By thus making up the deficiency caused by the idleness in the competitive States the miners aided materially in securing their demands.

During 1910 the coal mines of Kentucky gave employment to 20,316 men, who worked an average of 221 days. Labor disaffections in Kentucky mines were limited to short strikes in 14 mines.

Kentucky is one of the leading states in mining coal by the use of machines and ranks next to Ohio in the percentage of machine mine output to the total production. In 1910 out of a total of 14,623,319 short tons, 9,362,851 tons, or 64 per cent were machine mined.

Circuit Clerk Appointment.

Judge Robert L. Stout announced in Frankfort that he had appointed Louis Finley as successor to George S. Robinson as Circuit Clerk of Scott county. The Deputy Clerk under Mr. Robinson declined, so it was announced to turn over the office to Mr. Finley until the latter stood an examination for the position.

Aids Nature

The great success of Dr. Pierce's Golden Medical Discovery in curing weak stomachs, wasted bodies, weak lungs, and obstinate and lingering coughs, is based on the recognition of the fundamental truth that "Golden Medical Discovery" supplies Nature with body-building, tissue-repairing, muscle-making materials, in condensed and concentrated form. With this help Nature supplies the necessary strength to the stomach to digest food, build up the body and thereby throw off lingering obstinate coughs. The "Discovery" re-establishes the digestive and nutritive organs in sound health, purifies and enriches the blood, and nourishes the nerves—in short establishes sound vigorous health.

If your dealer offers something "just as good," it is probably better FOR HIM—it pays better. But you are thinking of the cure not the profit, so there's nothing "just as good" for you. Say so.

ALL MY PIMPLES GONE

Girl Tells How a Blotchy Skin Was Cleansed By a Simple Wash.

"I was ashamed of my face," writes Miss Minnie Pickard of Altamahaw, N. C. "It was all full of pimples and scars, but after using D. D. D. Prescription I can say that now there is no sign of that Eczema, and that was three years ago."

D. D. D. has become so famous as a cure, and instant relief in Eczema and all other serious skin diseases, that its value is sometimes overlooked in clearing up rash, pimples, blackheads, and all other minor forms of skin impurities.

The fact is, that while D. D. D. is so penetrating that it strikes to the very root of Eczema or any other serious trouble, the soothing Oil of Wintergreen, Thymol and other ingredients are so carefully compounded there is no wash for the skin made that can compare with this great household remedy for every kind of skin trouble. D. D. D. is pleasant to use, perfectly harmless to the most delicate skin, and absolutely reliable. A 25-cent bottle will give you positive proof of the wonderful effectiveness of this great remedy.

STAMPS WORTH A MILLION

Largest Collection Ever on Display to Be Seen at the Chicago Art Institute of Chicago.

Chicago.—A million dollars worth of rare postage stamps were placed on exhibition at the Art Institute the other day; the collection being the largest ever shown in the world. The exhibit is a feature of the meeting of the American Philatelic society and the exhibitors include millionaires, governors, senators and a number of boys.

Chicago's exhibit is not international, but the collection is more valuable than the one displayed at the last international exhibit at Birmingham, England. The doors of the Art Institute were opened to the public following the reception to the guests in Fullerton hall.

"I am sure the world has never seen as rare a collection as we are placing on exhibition," said Henry M. Loth, director of the exhibit. "Our original intention was to experiment to see whether there would be a response if we would make it international in its scope. We had planned only a small exhibit, but they have completely swamped us. It will require four rooms and the corridors to place the exhibit."

The value of the single stamps range from 50 cents to priceless treasures. One of the most valuable is the stamp the king of England bought for \$5,200, which later passed into the hands of an American. Another interesting curio is the stamp that caused the revolutionary war, the Boston tea party stamp. The Buffalo Pan-American stamp with the plate reversed, the error that set the tongues of all America wagging when news of Uncle Sam's mistake in his printing department leaked out, is another interesting exhibit. There is a collection of Queensland twopence stamps of rare value. The walls of the four rooms of the institute are papered with the stamps and guards will be on constant watch to protect the treasures.

The entire collection has been insured at practically the face value of \$1,000,000. The exhibit will close Sunday afternoon.

RIVAL OF RADIUM IS FOUND

Cheaper Substance Believed to Possess All Its Wonderful Properties Is Uncovered in England.

Birmingham, Eng.—Radium, welcomed only a few years ago as without parallel in the realms of scientific discovery, has a rival. Already its fame is being challenged by a cheaper substance which is believed to possess all its wonderful properties. So said Mr. Deane Butcher, in an address to one of the sectional meetings of the British Medical association's congress.

"Happily," he declared, "in treatment of malignant growth by electron bombardment we are no longer restricted to the use of but one radioactive substance."

"The recent work of Dr. Hahn has shown that some of the derivatives of thorium—especially mesothorium—are even more active than radium. We may hope that in a short time we may be in possession of a radio-active substance which is not only cheaper, but also much more plentiful than its rival."

The lecture was amazing from the layman's point of view. Mr. Butcher talked of quantities which not only defied measurement, but were too small even to be thought about by the untrained mind.

He spoke of the machine unit—the quantity of radio-activity, which causes a leak of one-thousandth of an electrostatic unit per second.

"Some idea of the smallness of this quantity," he said, "may be gathered from the fact that an atmosphere of one machine unit per litre contains one part of emanation in 500,000,000,000,000 parts of air."

GLOBE RACER LOSES PANTS

Frenchman on Journey Around World on Forty-Day Limit Has Distressing Mishap in Gotham.

New York.—The world-girdling tour of Andre Jager-Schmidt met a setback the other day. The young French journalist lost his trousers. After a frenzied search in which every bell boy at his hotel took part, the missing garments were retrieved in time for Jager-Schmidt to put them on and set out for the pier, where his steamer was scheduled to leave at one o'clock for France.

The man who is trying to circle the globe in 40 days sent his trousers to be pressed early in the day. Jager-Schmidt travels light. This was his only pair and he had neglected to instruct the boy regarding their importance.

Jager-Schmidt whirled into the focus of half a dozen moving picture machines and up the gang plank of the liner Olympic ten minutes before the sailing time, confident that he will win his race.

The whirlwind race to the pier was an added feature for the benefit of the picture men, and was not, he said, occasioned by the tardy finding of his trousers.

Auto Tire Hurls Stone. Montclair, N. J.—Workmen are replacing a \$150 plate glass window in the front of a store here. It was broken by a stone dashed from the roadway by the wheel of a passing automobile. The stone was lying loose in the roadway and when the tire of the auto hit it the missile was hurled as if from a catapult.

World's Greatest Pacers at Trots

During the Great Lexington Trots of October 3 to 14, next, there will be two sensational pacing races such as have never before been seen. These are the races between Independence Boy 2:01 1-2, Earl, Jr., 2:02 1-4, the Kel 2:02 1-4, Es H. Kay, 2:02 1-4, the Abbe 2:04, and possibly Lady Maud C. 2:00 1-4.

One of these races will be on the fourth day of the meeting, Friday, October 6, and the other on the 8th day, Wednesday October 11. Some world's records will be smashed during these races, and no one can pick the winner. Remember the half rates on railroads and attend.

Sow's Eyelids Sewed Together.

L. L. Herndon, a prominent farmer of Scott county, was fined \$10 and costs in county court at Georgetown Tuesday on the charge of cruelty to an animal. Herndon owns a sow which had been trespassing on his corn field, and to keep her from getting at the corn, he caught her and sewed up her eyelids with a needle and thread. The accused pleaded guilty and accepted the fine imposed by the court.

Don't Expect Kindness.

There are six sorts of people at whose hands you need not expect much kindness. The narrow minded think of nobody but themselves, the lazy are too indifferent, the busy have not time to think, the rich disregard appeals for kindness, the poor have neither spirit nor ability, and the good natured fool is not capable of serving you.—Home Notes.

Would Be Rid of Undesirables.

Ambassadors from a besieged town were treating with Alexander the Great on the terms of surrender. Alexander ordered that Acuphis, the eldest of the ambassadors, should be the governor of the town, and that he should send immediately as hostages 100 of the best citizens. Acuphis then smilingly observed: "Sire, I could govern better if thou wouldst permit me to send thee 100 of the worst citizens instead of 100 of the best."

Something About Names.

A person will grow to look like and be like his or her name. Algernons and Reginalds of modern times look the part, and owe a deep debt of ingratitude to their parents. A young man named Harold or Montmorency would be justified in hiring an automobile and running over his aged parents as they are attempting to cross the street on the way home from church.—New York Times.

In Praise of Poetry.

The old hymn says: "Religion never was designed to make our pleasures less," and the same thing ought to be said about poetry. The distaste for poetry arises from the habit of treating it as if it were only a more difficult kind of prose. . . . The prosaic commentary obscures the beauty of the text.—C. M. Crothers.

A Fierce Night Alarm.

is the hoarse, startling cough of a child, suddenly attacked by croup. Often it aroused Lewis Chamblin, of Manchester, O., [R. R. No. 2] for their four children were greatly subject to the croup. "Sometimes in severe attacks," he wrote "we were afraid they would die, but since we proved what a certain remedy Dr. King's New Discovery is, we have no fear. We rely on it for croup and for coughs, colds or any throat or lung trouble." So do thousands of others. So may you. London's Italian Colony.

The Italians in London, England, are sufficient of themselves to form a large town. There are as many as 14,000, about 2,000 of whom are ice-cream vendors and 1,000 organ-grinders. The other 11,000 are chiefly engaged as plaster bust sellers, artists' models, cooks, valets, teachers, artists, restaurant and hotel keepers, and so on.

Mirrors in Decorations.

In the sixteenth century no lady was considered in full dress unless she had a mirror at her breast. It was oval in shape about 4 by 6 inches in size.

World's Longest Rivers.

The longest rivers of the world are: North America, Missouri and Mississippi, 4,575 miles; South America, Amazon, four thousand miles; Europe, Volga, 2,300 miles; Asia, Yangtze, 3,000 miles; Africa, Nile, 4,100 miles, and Oceania, Murray and Darling, 1,500 miles.

Has Millions of Friends.

How would you like to number your friends by the millions as Bucklin's Arnica Salve does? Its astounding cures in the past forty years have made them. It's the best Salve in the world for sores, ulcers, eczema, burns, boils, scalds, cuts, corns, sore eyes, sprains, swellings, bruises, cold sores. Has no equal for piles. 25c at Oberdorfer's.

Caution.

"Are you giving credit now?" asked the man who had returned to his old home. "No," answered the proprietor of the general store. "What has become of that old sign you had over the counter, 'No Trust'?" "I decided to take it down. I was afraid some of the corporations that supply me with goods would misunderstand it and take offense."

Buttermilk for Gout.

If you are troubled with gout you should drink at least one quart of buttermilk a day. It is said to have the property of keeping various salts dissolved in the blood and thus is useful in gout. It promotes the circulation.

Daily Reminder.

No better day than this on which to follow Walt Whitman's example to loaf and invite your soul, provided your soul will accept the invitation. At least you can loaf.

Draws the Line at Flies.

McDermott Addresses Voters.

Hon. E. J. McDermott, Democratic candidate for Lieutenant Governor, addressed a large and enthusiastic crowd at the court house last evening. The audience was made up of representative citizens and a large number of ladies were present. Mr. McDermott delivered an excellent address, bitterly denouncing the platform of the Republicans. His address was well received.

MATRIMONIAL.

—Mr. B. M. Osborne, of Scott county, and Miss Lucille Stone, of Georgetown, eloped to this city Tuesday evening and were quietly married at the residence of the officiating minister, Elder Carey E. Morgan, on Twelfth street, about eight o'clock. Parental objections on the part of the folks of the young lady principal to the wedding prompted the elopement. They arrived in Paris shortly after supper in an automobile, and securing a marriage license from County Clerk Patton they went at once to the residence of Elder Morgan, where the ceremony was performed.

The bride is a handsome and attractive young woman of the brunette type and the daughter of Mr. and Mrs. Benj. S. Stone, the former a member of the City Council of Georgetown, prominent in politics and business man. The groom is a young farmer and a son of Mr. and Mrs. John Osborne. He is well connected and a member of one of Scott county's most wealthy families.

Immediately after the ceremony the couple left in an automobile for Lexington from which point they took a train Wednesday morning for an extended trip in the South.

—Lieutenant Adam L. Estelle, of the Philippines Contabulary, and Miss Catherine Carmody, of this city were married at the Catholic church parsonage at Mt. Sterling by Rev. E. B. Rohrer, early Wednesday morning in the presence of a few friends and relatives and left immediately for Lexington where they will visit a few days before going to the Philippines. The bride is a daughter of Thomas Carmody, of near this city. She is a graduate of the Mt. Sterling High School and State University. She has been teaching in Covington for the past few years and only resigned recently. Lieut. Estelle stands high in army circles and is a splendid young gentleman.

Prominent Man Answers Final Summons.

Mr. Robert J. Neely, one of Paris' foremost business men and for years one of the best known implement dealers in this section of the county, died at his home on Duncan avenue Wednesday morning about 11 o'clock after a protracted illness of Bright's disease.

For more than two years Mr. Neely had been in declining health and for several months his condition has been such as to cause the gravest alarm among his relatives and many friends. Mr. Neely was born and reared in this city, where he spent his entire life, and for years has been identified with the best interests of the town and one of its representative and substantial citizens. At the death of his father, Mr. Joseph Neely, he succeeded to his implement business, which he conducted with a marked degree of success until his declining health compelled him to retire, and his business was disposed of to the firm of Yerkes & Kenney.

At the time of his death Mr. Neely was a director of the Deposit Bank, a position he has held for a number of years, and was Vice President of the Bourbon County Agricultural Society since it was reorganized six years ago. He was a consistent member of the Presbyterian church, and gave liberally to all causes of religious and missionary work. He was generous, kind-hearted and of a very charming nature. His friends were numbered by the score and his demise caused universal sorrow.

Mr. Neely, who was in his fifty-ninth year, is survived by his wife, who was formerly Miss Sallie Mitchell, one half-brother, Mr. Samuel J. Neely, of Cumberland, Md., and three sisters, Mrs. John A. Lyle, Mrs. John A. Mitchell and Mrs. William R. Blakemore, all of this city.

The funeral services were held from his late residence on Duncan avenue yesterday afternoon at 4 o'clock conducted by his pastor, Rev. Dr. B. M. Shive, who paid a beautiful tribute to the memory of the deceased. The remains were consigned to their last resting place in the Paris cemetery. The pall-bearers were Chas. Stephens, Jesse Turney, Frank Remington, W. H. Harris, Joe M. Hall, George R. Bell, Clarence Thomas, W. H. Webb and George B. Alexander.

—The infant daughter of Mr. and Mrs. Offutt Boardman which was born Tuesday night, died yesterday morning about ten o'clock. The burial took place yesterday afternoon at 2 o'clock, with services at the grave in the Paris cemetery by Rev. Dr. B. M. Shive.

RELIGIOUS.

—The new Baptist church at Somerset, erected at a cost of \$30,000, was dedicated Monday. The outstanding indebtedness on the building of \$11,000 was wiped out at the services by voluntary subscription.

—Rev. J. M. Maxon will be in his pulpit at the Episcopal church Sunday morning at 10:45 and afternoon at 3 o'clock.

—Preparatory services will be held at the Presbyterian church Saturday afternoon at 3 o'clock and communion services will be held Sunday morning at 10:30 o'clock. Sunday evening services will be held at 7 o'clock. The services at night will be in the hands of Rev. Herman Jones, president of the Presbyterian Orphanage at Louisville and he will be accompanied by Miss Shaw, of that institution who will have in charge the boy, who is an inmate of the institution and who has been clothed by the ladies of the Paris church. A cordial invitation is extended to all to attend the service.

Mr. Luman will build a three story edifice on the site of his present building and will occupy it for his furniture business. During its construction he will occupy the house on Broadway formerly occupied by Pruitt's grocery." Mr. Luman formerly lived in this city where he conducted a furniture establishment and was connected for a time in that business with Mr. B. F. Adcock.

Wins Vatch in Contest.

Col. C. E. VanHook, the Cynthia auctioneer, well known in this city, has received a gold watch as a prize given in a contest in which five other auctioneers throughout the United States competed. The watch was given by an auctioneering school in Chicago for the auctioneer whose sales amounted to the most for the period between September 1, 1910, to April 1, 1911. During that time Mr. VanHook's sales amounted to over \$504,000. The property he sold was in Bourbon, Harrison, Scott, Bracken, Pendleton and Nicholas counties.

Jumped from Buggy and is Injured.

Miss Margaret Merringer, aged 19, daughter of Mr. and Mrs. John Merringer, residing on the Clintonville pike, near this city, lies in a critical condition at the St. Joseph Hospital in Lexington with a fractured skull as the result of an accident which occurred near her home Wednesday morning.

Miss Merringer, with her sister, Miss Anna Merringer, started to town Wednesday morning and just after coming out of the gate on the pike, a bolt in the shaft fell out allowing that part of the vehicle to fall, which, striking the horse's legs, caused the animal to run.

Becoming frightened the young woman jumped from the wagon, striking the road on her head, causing the fracture of the skull at the base of the brain. Her sister, who remained in the vehicle, succeeded in stopping the horse and was unhurt.

The unfortunate girl was picked up in an unconscious condition and taken to her home where medical aid was immediately summoned and she was taken to the St. Joseph Hospital, Lexington, by Dr. C. G. Daugherty at 11 o'clock. At this institution at 3 o'clock Wednesday afternoon a trepanning operation was performed and the young lady is said to have a chance for recovery although her condition is regarded as critical.

White Dies from Wound.

Frazier White, who was shot by Shorty McCoy, another negro, following a difficulty at the fair grounds Saturday night, died at the Good Samaritan Hospital in Lexington Wednesday afternoon. The bullet, which entered White's body a few inches below the collar bone, struck the spine, which caused paralysis, affecting him from the waist down. He was taken to the hospital Monday, where an X-ray examination was made to locate the bullet.

McCoy, who was arrested shortly after he shooting was charged with malicious shooting with intent to kill was released the morning after the tragedy on a bond of \$300. Yesterday morning the warrant was changed and the bond renewed. McCoy will probably be arraigned in the county court Saturday afternoon at 3 o'clock for his examining trial.

THEATRICAL.

"THE ROSARY."

Whatever else may be said of Rowland & Clifford's new production, "The Rosary," which comes to the Paris Grand on Wednesday, October 4, the charge of imitation of other plays cannot be made. "The Rosary" virtually breaks new ground in the dramatic field and should prove a veritable surprise when the curtain rises upon it.

The play is built upon a thoroughly modern theme, viz: the influence of thought upon the lives and well being of the men and women of our present day.

"The Rosary" attacks the theme boldly. It deals with the lives and fortunes of a little group of people living in the beautiful West Chester country near New York City. The husband is a diabolical in all religion; his wife, a woman of serious conviction regarding faith in the things of life unseen. Strong in his belief and thoroughly

human, a priest moves through the subtle story of this play. When doubts come and the man and woman's lives are shattered, seemingly beyond human power to repair, this priest analyzes the situation and by the power of his faith brings both the people whom he loves back to happiness.

The stage settings are unique in their way; the first act occurs in a wonderfully beautiful grape arbor, the second and third are laid in a charming interior, showing the atmosphere of serene home life, while the fourth is a new church built by the unbelieving husband for his friend, the priest.

After all the discussion of the play during four acts, a wonderful effect is attained by the peace and serene quiet of the church where the man and woman who have suffered come at last to find their burden down and find peace.

No detail in the immense labor of adequate production has been too trivial for Messrs. Rowland & Clifford to oversee and look after with the carefulness which in the past has been synonymous with their names as managers, and "The Rosary" on its presentation will be as near perfection as brains, money, infinite labor and vast experience can make it.

Prices 50 cents, 75 cents and \$1. Seats on sale at Mitchell & Blakemore's Monday morning.

"TEN NIGHTS IN A BAR ROOM."

By far the most popular play ever produced on the American stage is "Ten Nights in a Bar-room." It is a lasting lesson to humanity, teaching a moral ever to be remembered. Manager Porter, of the Paris Grand has arranged for its production of the play in moving pictures at the Grand on Saturday night. Every scene is absolutely real. Every character is absolutely true to life. It is the greatest production of this drama ever made. A play that every father, mother, son and daughter should see. Admission ten cents. First performance at 7:30.

Game Season Closed.

The hunting season for all sorts of game, including rabbits and squirrels, closed September 15. The quail season begins on November 15. A few years ago the legislature passed a law prohibiting hunting of any kind during the two months immediately preceding the open season for quail. This was done because many people would go out hunting under the pretext of killing rabbits, squirrels, etc., and would also kill quail before the law was out. In order to stop this the law was passed and it is now regarded as prima facie evidence of guilt to even be caught in the field with dog and gun during these two months.

FREE SAMPLE CURED OLD PERSON'S BOWEL TROUBLE

One of the most remarkable proofs of the unusual laxative merit contained in Dr. Caldwell's Syrup Pepsin is that it is effective not only in people in the prime of life, but at the extremes of ages. As many letters are received from mothers regarding the cures of children, as from men and women of sixty, seventy and eighty years of age. It must be truly a wonderful laxative.

In the cure of constipation and bowel trouble in old people it has no equal. It corrects the constipation, dispels the headache, biliousness, gas, drowsiness after eating, etc. People advancing in years should see to it that their bowels move freely, and if they do not to take Dr. Caldwell's

Syrup Pepsin. You can prolong your life by healthy bowel action. Clogged bowels invite disease. Women about to pass the menstrual period cannot do better than use Syrup Pepsin several times a week until the system has settled to its future condition.

Among the strongest supporters of Dr. Caldwell's Syrup Pepsin are Mr. W. G. Zorn of New Decatur, Ala., and Mr. George S. Spaulding of the National Soldiers' Home, Kansas, both elderly men. The regular size bottles can be bought of any druggist at fifty cents and one dollar, but a free sample bottle can be had by sending your address to the doctor.

Address him Dr. W. B. Caldwell, 402 Caldwell building, Monticello, Ill.

Bloodine Cough Checker

Loosens the phlegm immediately and permanently, cures a Cough, Croup, Whooping Cough and all Throat and Lung Affections. The best remedy for children. 25c, 50c and \$1.00 a bottle. Mrs. Harriette Wells Allen, Gaffney, S. C., says: "I have had Bronchitis for about twenty years and this is the first medicine that has done me such good."

W. T. Brooks, Agent.

Undecipherable.

"Do you know anything about Euripides?" asked the erudite relative. "A little," replied the young man with nerve. "And what are your impressions?" "Well, what I have seen of his stuff convinces me that he wrote a mighty poor hand."

Worth the Finding.

One strong thing I find here below—the just thing, the thing true.—Selected.

Spider Racing.

Lord Devon's property was greatly impoverished by the twelfth earl who squandered nearly all his fortune and terribly embarrassed the entailed property. He was addicted to a most peculiar form of gambling, namely, spider racing, which he played with the last Marquis of Hastings and the eighth Duke of Bedford. Each player selected a spider, which was placed on the table, and then the latter was gently heated from underneath. The warmth caused the insects to run, and the spider which got to the edge first won. But spiders are curious creatures, and it would frequently happen that a spider which was near the edge and looked like winning would double back, traverse the table in all directions and lose its backer the thousands of pounds so nearly won. Lord Devon, Lord Hastings and the Duke of Bedford each of them squandered enormous sums on this game, which contributed in no small degree to the ruin of the two former.—New York Tribune.

Inn Names in Germany.

Germany probably holds the record for out of the way signs and fantastic inn names. The most absurd results are usually obtained by the name of some animal with a more or less unsuitable object. The Comfortable Chicken and the Cold Frog, both of them in Berlin, are certainly left in the shade by the Angry Ant (Ort, in Westphalia) and the Stiff Dog (Berlin). The Lame Louse is an inn in a suburb of Berlin, and not far from it is the Thirsty Pelican. The Dirty Parlor, the Bloody Bones, the Musical Cats, the Fourhundredweight Man, and the Boxers' Den are all in Berlin or the neighborhood, and the Old Straw Bag in Leipzig. The Open Banghole is in Stadtohen, in the Palatinate, and the Shoulder Blade in Jerichow. The Last Tear is a landlord's notion for the name of his inn, situated near a graveyard, visited by returning mourners, and is of frequent occurrence throughout the fatherland.

A Strange Colony.

The Colonia Cosme, on the Paraguay above Asuncion, is one of the most curious in the world. The members of the colony make or grow everything they want and import nothing. The workmen have seven hours' work a day and earn, not money, but time. Their wages are hours and half hours. These they sometimes save up till they have a week in hand and then go off on an excursion. If a man wants a chair or table he pays for it in hours of work, which are deducted from the balance to his credit. Three men went off up the river in a canoe for a three weeks' holiday. They sold their canoe at Asuncion for a pound and came home overland in ten days, lodged in the best houses in the villages on the way and yet had some money in hand at the end.—London Spectator.

Dogs in Ecclesiastical Decorations.

The stained glass representation of the "Peddler and His Dog" was removed from Lambeth church a quarter of a century ago owing to the alleged incongruity of introducing the figure of a dog in a church window. Quite recently Chancellor Prescott of Carlisle refused a faculty for a stained glass window in a Westmorland church because the design included a dog, and perhaps the only existing examples of dogs used for ecclesiastical decorations are to be found in Lord Brownlow's private chapel at Ashbridge. In this church one stained glass window depicts Tobias and Sara in bed and a dog sleeping on the quilt, while in another window Job is shown being mocked by three men, one of whom is holding a dog by a chain.—Westminster Gazette.

The Giant's Staircase.

One of the most widely known geological curiosities in the vicinity of Cork is a series of knobs or knots projecting from the face of a cliff. There are sixteen of these huge projections all together, all regularly set in the face of the cliff, one above the other, forming a series of such uniformity as to give it the general appearance of a stairway. Since time out of memory this queer ascent and its projecting "steps" have been known as the Giant's Staircase.

How He Won.

A rich old man was asked how he made his money. "Simplest thing in the world," he said. "I always did the reverse of what everybody else was doing. If everybody bought, I sold—prices were high. If everybody sold, I bought—prices were low."

Prepared for the Worst.

Husband—Goodby, my dear. A pleasant voyage. I have taken every precaution in case of accident. Wife—What do you mean? Husband—Insured your life in my favor.—Journal Amusant.

Her Dear Friend.

"I have declined marriage proposals from five men," said the fair widow. "Have you?" her friend asked. "I didn't suppose your husband had been as heavily insured as that."—Chicago Record-Herald.

A Jiffy.

Tommy (who has been told to go to bed)—Pa, how long is "a jiffy?" Father—It's just about the length of time you've got to go to bed without a licking.—Boston Transcript.

The Last Dance.

He—May I ask you for a dance? She—Certainly, the last one on the list. He—But I'll not be here then. She—Neither will I.

CATARRH!

Cured by the Marvel of the Century, B. B. B.—Tested for 30 Years.

Hawking, spitting, foul breath, discharges of yellow matter permanently cured with pure botanical ingredients. To prove it we will send you a SAMPLE TREATMENT FREE. Catarrh is not only dangerous but it causes ulcerations, death and decay of bones, kills ambition, often causes loss of appetite, and reaches to general debility, idleness and insanity. It needs attention at once. Cure it by taking Botanic Blood Balm (B. B. B.). It is a quick, radical, permanent cure because it rids the system of the poison germs that cause catarrh. At the same time Blood Balm (B. B. B.) purifies the blood, does away with every symptom of catarrh. B. B. B. sends a tingling flood of warm, rich, pure blood direct to the paralyzed nerves, and parts affected by catarrhal poison, giving warmth and strength just where it is needed, and in this way making a perfect, lasting cure of catarrh in all its forms. Druggists or by express, \$1 per large bottle, with directions for home cure. Samples sent free by writing Blood Balm Co., Atlanta, Ga. Describe your trouble and free medical advice given. Sole by Varden & Son.

Bloodine Ointment Itching and Bleeding Piles, Psoriasis, Salt Rheum, Pimples, Rash, Dandruff and Falling Hair.
Mrs. H. W. Allen, Gaffney, S. C., says: "I have used Bloodine Ointment for Eczema and find it a most effective remedy."

W. T. Brooks, Agent.

The Frankness of Women.

Though the male was never taken at his own valuation by women, for the first time in modern history women are beginning to say so.—Morley Roberts in "Thorpe's Way."

For the Teeth.

The chemical action of peroxide of hydrogen upon gold teeth, which makes an unpleasant taste in the mouth, can be destroyed by using salt with the liquid. Its whitening virtues are excellent.

WHAT CURES ECZEMA?

We have had so many inquiries lately regarding Eczema and other skin diseases, that we are glad to make our answer public. After careful investigation we have found that a simple wash of Oil of Wintergreen, as compounded in D. D. D., can be relied upon. We would not make this statement to our patrons, friends and neighbors unless we were sure of it—and although there are many so-called Eczema remedies sold, we ourselves unhesitatingly recommend D. D. D. Prescription.

Because—We know that it gives instant relief to that torturing itch.

Because—D. D. D. starts the cure at the foundation of the trouble.

Because—It cleanses, soothes and heals the skin.

Because—It enables Nature to repair the ravages of the disease.

Because—The records of ten years of complete cures of thousands of the most serious cases show that D. D. D. is today recognized as the absolutely reliable Eczema cure.

Drop into our store today, just to talk over your case with us.

NOTICE.

All accounts due the firm of Yerkes & Kenney are due and payable at the office of the firm, corner Fourth and Pleasant streets, and all indebted to them will please settle promptly.

It is necessary for these matters to receive immediate attention on account of a change in the firm. Respectfully,
22th S & YERKES & KENNEY.**Are You Nervous?**

What makes you nervous? It is the weakness of your womanly constitution, which cannot stand the strain of the hard work you do. As a result, you break down, and ruin your entire nervous system. Don't keep this up! Take Cardui, the woman's tonic. Cardui is made from purely vegetable ingredients. It acts gently on the womanly organs, and helps them to do their proper work. It relieves pain and restores health, in a natural manner, by going to the source of the trouble and building up the bodily strength.

TAKE The CARDUI Woman's Tonic

Mrs. Grace Fortner, of Man, W. Va., took Cardui. This is what she says about it: "I was so weak and nervous, I could not bear to have anyone near me. I had fainting spells, and I lost flesh every day. The first dose of Cardui helped me. Now, I am entirely cured of the fainting spells, and I cannot say enough for Cardui, for I know it saved my life." It is the best tonic for women. Do you suffer from any of the pains peculiar to women? Take Cardui. It will help you. Ask your druggist.

To Fight High Cost of Living.

Members of the farmers' union in Bath county are taking steps to establish a co-operative store and a bank to be capitalized at \$35,000. The farmers are enraged at the high cost of living and intend to buy their staples in large quantities to bring down the ordinary purchase prices. If the movement succeeds, it is intimated that promoters will advocate establishment of the plan in all of the Southern States where the union is strong.

Morgan Statue on the Way.

The General John Hunt Morgan monument, which is to be placed in the court house yard in Lexington has been shipped from New York and is due to reach that city October 1.

Major Otis S. Tenney, of the monument committee, has received a letter announcing this fact. The unveiling services will be held October 17. William Adams and Sons has been given the contract for placing the monument.

STOCK, CROP AND FARM NOTES

WHEAT, RYE.—Choice Fultz seed wheat, also seed rye for sale.

R. B. HUTCHCRAFT.

—The Simpson county tobacco crop is already cut and in the house which is causing much activity among the buyers of that section. The crop is said to be the best grown in that county in many years.

—The water supply in Nicholas county is now plentiful and the corn crop will be far beyond expectations, causing much regret among the farmers who were busy in shipping their stock out of the county during the dry season.

—Tobacco cutting in Nicholas county is in progress, but owing to the lateness of the crop occasioned by the long dry spell the farmers are becoming restless and while the tobacco is not yet ready for the knife it is being rushed to the barn for fear of the early frosts.

—Ben Longnecker, of Mason county, sold this week 100 head of cattle at 4 1/2 cents per pound. A month ago he made an effort to sell them at any price, being unable to feed or water them. He cut down a field of corn that had been burned by the drought and fed it to the herd and as a result realized a handsome profit.

—In the Lexington Circuit Court Mrs. R. T. Lowndes, of Danville, has sued the L. & N. road for ten thousand dollars for the loss of the noted saddle mare, Princess Sonia. She was shipped to the Illinois State Fair to be shown and it is alleged, was neglected, contracted and illness from which she died.

—Farmers of Nicholas county, who have sustained damage to sheep this year, will only realize about fifty cents on the dollar on their claims. Up to date there have been filed \$1,900 in claims against the dog tax fund, which in that county amounts to about \$1,000. Last years the farmers received 65 cents on the dollar. The claims will easily go over \$2,000 this year.

—United States Senator Thomas H. Paynter closed a deal last week for the purchase of the Belleair stock farm in Franklin county, from Thomas E. Kenney, the well known lumberman and Jersey cattle breeder. The farm contains 346 acres, and while the price paid is a private one, it is said to be something like \$120 an acre, making the farm bring \$45,000. This farm was bought from W. J. Lewis by Mr. Kenney some three or four years ago, and was at that time noted as the breeding place of a number of noted trotting horses that sold for large prices. This is the highest price ever paid for a farm of equal size in Franklin county.

—The big sale of registered Jerseys held by Thos. E. Kenney in Franklin county last week was most successful. There were buyers present from Indiana, Ohio, Tennessee, Mississippi, Missouri, Illinois and Kentucky. Eighty head of bulls, cows and heifers sold for a total of \$12,500. The highest price, \$625, was paid for a bull by the Kenlock farm, of Kirksville, Mo. This farm also bought the highest priced cow, \$430. The Kenlock farm was the largest purchaser at the sale, securing 23 head for \$3,095. J. A. Rodman, of Shelby county, also bought several. About fifteen of the best cows and heifers were bought by Franklin county farmers, Edwin Dryden securing several.

WASH THAT ITCH AWAY

It is said that there are certain springs in Europe that give relief and cure to Eczema and other skin diseases. If you knew that by washing in these waters you could be relieved from that awful itch, wouldn't you make every effort to take a trip to Europe at once? Would you not be willing to spend your last cent to find the cure?

But you need not leave home for these distant springs. Relief is right here in your own home town!

A simple wash of Oil of Wintergreen, Thymol and other ingredients as compounded only in D. D. D. Prescription will bring instant relief to that terrible burning itch, and leave the skin as smooth and healthy as that of a child.

If you have not already tried it, get at least a 25-cent bottle today. We assure you of instant relief.

A Singular Dress Parade

A Story of the Future

By SADIE OLCOTT

Copyright by American Press Association, 1911.

It was in the year 1920 that the matter of woman's suffrage came to a head, woman agreeing to accept all duties of citizenship the same as men.

A battalion of volunteer infantry was organized by the government as an experiment, under command of a major. Trouble began as soon as the matter of uniform came up for consideration. The brunettes strove for a deep red with black facings, while the blonds favored either pale blue or pink. The matter was voted upon, and the brunettes being in the majority, the red won. A pattern for the suit was adopted, the trousers being very full and reaching only to the knee. Since the first decade of the century, when women began to wear hats of different shapes, independence in this matter had been continually growing. It was therefore found impossible to agree upon a uniform hat, and each woman was permitted to wear any shaped head covering she pleased.

The members of the regiment were ordered to rendezvous in camp. The quartermaster, a man who had been charged with the work of establishing the camp, provided only such equipment as he had been used to providing for men. During the morning of the date of assembly the women soldiers came flocking in, the quartermaster receiving them and instructing them in the uses of the equipment. What was his consternation to see vans, wagons, carts, without limit drive up loaded with trunks, valises and other articles of baggage. The hat boxes alone, most of them prodigious, occupied more space than the belongings of a regiment of men.

He telegraphed at once for 500 hospital tents, which gave each woman one for her baggage. Fortunately the tents arrived while the weather was yet fine, and no damage was done by exposure. A dress parade was ordered for 5 o'clock in the afternoon, and people flocked in from city and country to see this popular military ceremony. When the call sounded and the line was formed it was plain that much must be done for uniformity. Here and there a blond had disregarded orders and had her uniform made of pink or blue. Some who were what is commonly called spindle shanked had their trousers made to reach the foot.

But the greatest irregularity was in the hats. There were small inverted sugar bowl hats, Chinese conical hats, hats with enormous crowns, hats with small crowns, hats with brims as large as cartwheels. Then there were feathers plucked from every bird from the humming bird to the ostrich. The government inspector from Washington put on a pair of spectacles, and as he cast his eyes along the line his brow darkened. But he had orders from the inspector general not to be too rigid with the battalion, which from the nature of the case needed a great deal of latitude.

The troops having been brought to an open order and a parade rest, he walked down the front of the line. At the first glaring breach of uniformity he reached he made a few remarks. He did not repeat them. The soldiers whose apparel he had found fault with began a defense, which lasted fifteen minutes and was not even discontinued when the inspector moved on.

As he passed along at the rear his position might be noted by the woman he was behind putting her hand to her back hair.

Having gone through the inspection perfunctorily he assumed his original position, and the major commanding was directed to put the battalion through the manual of arms. Her first order was "Attention," the second "Shoulder arms!" At the latter order every musket went up and every hat of extra size was knocked off and rolled on the ground. A brisk breeze blowing at the time carried many of them away, rolling them over the parade ground.

The situation was very embarrassing to the commander. How to get the hats back on the women's heads involved a puzzle. To break ranks during a dress parade would be un military, yet the hats could not be permitted to remain the sport of the wind. There were boys looking on who might be hired to chase them and pick them up, but only the women knew their own hats. The crowd looked expectant. There were some jeers. The inspector stood in a soldierly attitude, with arms folded. Decisions among soldiers cannot be long delayed, and the major was forced to act.

"Stack arms!"

"Break ranks and chase hats!"

There was a scurrying over the field by women who were fat and women who were lean, tall women, short women—indeed, all shapes. The fat ones fell on their hats and crushed them; the tall ones on stooping to pick up their property were knocked over by the short ones.

Finally the hats were recovered, the women "fell in" and the ceremony proceeded. When the band paraded the drum major, who had been selected, of course, for her height, produced a very marked impression on the spectators. Her headpiece, the size and shape of a flour barrel, was surmounted by a plume resembling a column of smoke. Indeed, those who gazed upon it were obliged to look at the sky as well.

But all this happened before the woman question was finally settled.

The Same Mistake is Made by Many Paris People.

It's a common error To plaster the aching back, To rub with liniments rheumatic joints. When the trouble comes from the kidneys.

Time to use Doan's Kidney Pills. Here is convincing proof of merit. M. T. Coons, 416 S. Mill street, Lexington, Ky., says: "For several months I was bothered by attacks of kidney trouble. I felt tired nearly all the time and had such intense backaches that I could not sleep. After I stooped my back pained me so severely that I could hardly straighten. I tried a number of remedies and used liniments and plasters but I steadily grew worse. A friend finally told me of Doan's Kidney Pills, saying that they cured him of a similar trouble, and acting on his suggestion, I procured a box. I received prompt relief from their use. Nearly eight years have since passed and I have not had the slightest attack of kidney trouble."

His Day of Fate.

An odd story of a dream of ill-omen comes from Sunderland, Durham, England. A young shipyard laborer dreamed that he would be killed, and therefore he did not go to work in the morning. In the afternoon he went to bathe in the River Wear, and getting into deep water was drowned before help could reach him. The efforts of his companions to save him were unavailing, through the swiftness of the current.

No Vipers in New World.

Africa is the home of the typical vipers. No species of the true viper inhabits the new world, though several kinds of snakes are commonly so called. The viperine snakes of this hemisphere belong to a sub-family of the vipers, known technically as the Crotalinae. Under this head come the rattlesnake, copperhead, water moccasin, bushmaster and the fer-de-lance.

Irreverent Youth.

On a recent publication day of a newspaper printed out west, a boy, some ten or twelve years of age, came into the office, and, with a peculiar grin on his face, inquired, "if that paper," pointing to the copy, "has an account of the man that has been murdered in Delevan?" He was answered in the affirmative, when depositing five cents upon the table, he remarked, with an air of self-importance, "Well—that's my dad, and I want to read about him."—Boston Herald.

Same Old Human Nature.

From the fresco paintings of women in Cretan palaces of the period about 2000 B. C. it is learned that the women of that time pinched in their waists, had flounced or accordion plaited skirts, wore an elaborate coiffure on their heads, shoes with high heels and hats which might have come from a Parisian hat shop, while one woman might be described as wearing a jupe culotte.

Uses of Nitrate of Soda.

Sodium Nitrate is the only nitrogen salt that can be used in solution, as all the other soluble salts of nitrogen become fixed as soon as they come in contact with the soil. However, they become available in a short time. The released sodium may correct soil acidity or may liberate calcium, potassium or magnesium from the soil.

If we have not access to road dust, we may take some field earth, fine and free from lumps.

There are several signs that indicate good health—a bright red comb, activity, readiness for food, and a glossy and smooth appearance of the feathers.

The new roads have made it a little more difficult for some of us to get dust for our chicks, but almost always there are little places where we can find some.

Under no circumstances should an unhealthy bird be allowed a place in the breeding pen, since such cannot fail to have an extremely injurious effect on the progeny.

I like the wire nests in the henhouse. I have thrown away the bulky insect-harboring wooden boxes. One can put three wire nests in the space usually occupied by a wooden box, and there is not a place in or around the wire nests for an insect to live.

Place the pullets in their winter quarters, before they start laying. It gives them a good chance to become acquainted with their new home. Place a china egg in each nest so as to guide them to the proper place to lay their eggs when they get ready. This month April hatched pullets should begin laying.

When the crops becomes very large, and the fowls show signs of the disease, keep them away from all feed, allowing only water, for forty-eight hours. Then give them all they will eat of finely chopped onions, allowing them nothing else but water for several hours more, or until they show they are relieved. I have never known the remedy to fail.—From October Farm Journal.

Snail Millions of Years Old.

A petrified prehistoric snail embedded in the heart of a large piece of blue lias stone, was discovered a few days ago by quarrymen working at Cheddar Cliffs, Wales, upon some large boulders of stone which were displaced in the landslide which occurred some years ago. The discovery is distinctly interesting to the geologists on account of the great age of the find, as, situated upon a very low strata, it must be millions of years since the snail lived.

Remains of Old-Time Fortress.

Archaeological researches made at a spot some 20 miles from Kars, Russia, have brought to light a completely intact stone fortress of prehistoric date. The masonry of the primitively designed forts and bastions is somewhat roughly, but extremely well laid. Among the many and various objects found are quite a number of well-preserved figures of heathen gods, mostly in animal forms and in a kind of hard-baked potter's clay.

A Hare's Daily Sea Bath.

A hare which had made a daily practice of swimming in the sea at Cley, to the delight of visitors, has been captured by some local fishermen in a boat. They chased the animal seaward for 300 yards before they came up with it. The hare was then exhausted and was easily captured.—London Daily Mail.
